✱ The employment percentage is calculated by dividing the number of graduates employed in field by the number of graduates available for employment within the reporting period.

$$\frac{\text{Number of Graduates Employed in Field}}{\text{Number of Graduates Available for Employment}}$$

✱✱ The licensure exam pass percentage is calculated by dividing the number of graduates who passed the licensure exam by the number of graduates who took the licensure exam within the reporting period.

$$\frac{\text{Number of Graduates Passed Licensure Exam}}{\text{Number of Graduates Took Licensure Exam}}$$

✱✱✱ The graduation percentage is calculated by dividing the number of graduates within 150% of the program length by the number students available for graduation within the reporting period.

$$\frac{\text{Graduates within 150\% of Program Length}}{\text{Number of Students Available for Graduation}}$$

✱ The following data reflects the results for graduates of the Practical Nursing program who took the National Council Licensure Examination for Practical Nurses (NCLEX-PN) during the cohort periods as required by the Accrediting Commission of Careers Schools and Colleges. The NCLEX-PN is a standardized examination administered by the National Council of State Boards of Nursing that Practical Nursing program graduates must pass in order to be licensed to practice as a practical nurse. The results provided in this disclosure may differ from the data collected by the [Pennsylvania State Board of Nursing](#) who publishes results from NCLEX-PN first-time test takers for a reporting period that begins on October 1 and ends on September 30 of each year.
